Response to Amendment

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claims Allowed

The following is an examiner's statement of reasons for allowance:

A method for improving the thermal oxidative stability of a jet fuel as claimed in claim 47, wherein the benzaldehyde functionality supported on a suitable support is to a level of at least 0.5 of a monolayer, is not taught or fairly suggested in the prior art. Prior art teaches benzaldehyde as a solvent but not as a compound supported on an adsorbent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
